## Need Your Help!

**WISH** represents a new direction of future medicine with vitality of youth. But we are young and our resources are very limited, especially in light of our dreams and vision. Since no one can really profit from a self-healing system except for patients themselves, our programs are largely run by volunteers and contributions. Your generous contribution (**501 (c) tax-deductible in the USA**) will help **WISH** to continue its course to advance a completely new medicine for mankind!

### **Some of our dreams and goals:**

- Train all cancer patients with a cost-effective self-recovery system, so they can realize the potentials of self-healing and recover from all diseases.
- Bring the benefits of mind-body medicine to the poor and the underserved in our society.
- Provide educational information to the public via professional web site and newsletters.
- Promote scientific research into spiritual and self-healing, validate and give voice to their effectiveness.
- Initiate support networks for healthcare professionals who search for mind-body medicine.
- Build some comprehensive drug-free rehabilitation centers around the world.
